

USAFA STEM BOOTCAMP 2012

YOUR MISSION OPPORTUNITY: US Air Force Academy (USAFA) Summer Bootcamp for STEM (science, technology, engineering & mathematics) Educators

WHAT: USAFA teams with the Colorado Consortium for Earth and Space Science Education and other Federal agencies and national organizations to bring to teachers in Colorado top-quality STEM training programs from around the country. Previous partner-presenters have included US Navy, Federal Aviation Administration, National Aeronautics & Space Administration, National Institute of Aerospace, and American Institute for Aeronautics and Astronautics. Teachers attending the previous USAFA STEM Bootcamp received hands-on training in programs such as SeaPerch and Lego FIRST Robotics! They also had the opportunity to win raffle prizes such as SeaPerch Robots, LEGO Mindstorms and Calculator Robots for use in the classroom with their students. **Don't miss it!**

WHEN: Two separate offerings of three-day sessions for elementary, middle, and high school educators. Choose one: July 11-13, 2012 or July 16-18, 2012; Time: 8:30AM to 4:30PM. **Mark your Calendar!**

WHERE: US Air Force Academy

REGISTRATION: Visit the CCESS (Colorado Consortium for Earth & Space Science Education) website at www.clccs.org. You can also reach the CCESS site via the Peak Area Leadership in Science (PALS) website at www.sciencehubs.org or the USAFA Chief Scientist's site at www.usafa.edu/df/dfe/dfer.

WORKSHOP FEE: \$25 registration fee; \$50 stipend paid on completion (subject to change)

CREDIT: 1.5 semester hours credit through Colorado School of Mines; \$80 (subject to change)

UNCLASSIFIED: Open to all STEM educators; it's not a secret—**recruit a friend!**

SPONSORS: USAF Academy K-12 STEM Outreach Center and Colorado Consortium for Earth and Space Science Education
